About Us

We are a leading transnational group providing diversified and integrated logistics services for the Supply Chain. We have 31 years of experience and a regional presence with our own offices and warehouses in 9 countries. We transport cargo to and from any part of the world. We are IATA accredited agents and are certified by BASC (Business Alliance for Secure Commerce).

Our staff is highly committed to quality customer service, fulfilling our greatest commitment, your peace of mind.

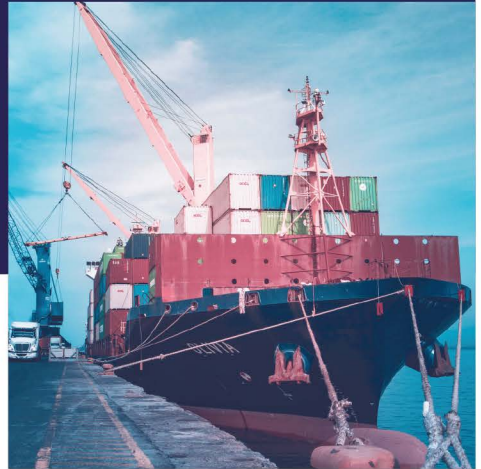

Let us be your strategic partner.

Our Services

International Multimodal Transportation

We provide international air, sea and land cargo services on both shipping modes, full containers and consolidated cargo, to and from any part of the world.

Oversized Load

Big solutions for big loads. Oversized international cargo covers shipments that exceed the maximum dimensions or weights permitted by air, sea or land transport companies in their regular operations.

Local and Regional Transportation

We offer ground transportation solutions for your local and regional needs, connecting strategic points in the supply chain.

FTL and LTL: We adapt the service to your needs, whether FTL (Full Truck Load) for large volumes or LTL (Less-Than-Truckload) for smaller shipments.

Regional land transit times

Transit Times - LTL

Our Goals::

Create new logistics routes

Improve lead times and costs for our clients

Create more sources of quality employment.

Create more sources of quality employment.

warehouses.

Storage Solutions

Simple and Bonded Storage

Choose the system that best suits your needs. GLC has modern infrastructure, secure warehouses and cutting-edge technology that allows for comprehensive management of your merchandise (reception, storage, order preparation and distribution).

Value Added Operations

Value-added operations are a set of services that complement the supply chain, adding value to the final product and improving the experience of the client.

Cold chain supply Storage

Our cold chain service includes cold rooms with controlled temperature, specially designed for the storage of products that require strict temperature control.

These rooms are available 24 hours a day, 365 days a year, ensuring the continuity of the logistics flow without interruptions.

Additionally, we offer the Dry Ice Refill service to ensure that the cold chain is maintained constantly and efficiently.

Documents and Packages Express Shipping

Our express shipping service for documents and packages guarantees fast and secure delivery of your most important shipments, with real-time tracking and maximum confidentiality..

Online Shopping and International Shipping

Buyex simplifies your international online shopping, making it easy to import products from around the world with a hassle-free process and excellent customer service.

Merchandise protection services

Electronic Security: GPS and Electronic Seal

At GLC, electronic security in the supply chain goes beyond simple tracking. Our comprehensive solution includes state-of-the-art GPS systems and smart electronic gear, which redefine security and control.

Physical security for the logistics chain

We guarantee the comprehensive protection of your supply chain.

From origin to destination, our expert logistics security team takes care of safeguarding your assets.

Seguros al Transporte Internacional de Carga

En GLC, su carga es nuestra prioridad. Por eso, al contratar nuestro servicio de transporte de carga internacional, le ofrecemos la posibilidad de gestionar un seguro a medida para proteger financieramente su mercancía en caso de daños, pérdida o robo durante su traslado.
